

i believe that i have the right to not have strangers calling my house selling me something or asking me questions about something i do not care about. i work long unusual hours and do not appreciate being woken up when i've just finished working an overnight shift so someone can sell me a magazine or trip that i'll never use. and i refuse to turn off my phone to that i don't have to hear these calls because i don't want to miss a call from family or friends that may be important. if i signed up for the nj do not call list, then i expect these people to not be able to call me. do not change our laws and allow these people to wake me up after a long nights work. there are other ways to get in touch with me other than calling me on the phone.
